

Open Access Publishing Options at Leibniz-IWT – State: January 2022 –

1. Leibniz Consortium Taylor & Francis

- **Full funding** under a special act via the ZBW (Publish&Read fees)
- Publication in Taylor & Francis Open Select (Hybrid) and fully open access journals
- Number of publications in the Leibniz Consortium limited
- Additional costs for special service away from open access publication may arise
- Administrative tasks are run decentrally, at the library of the respective institution

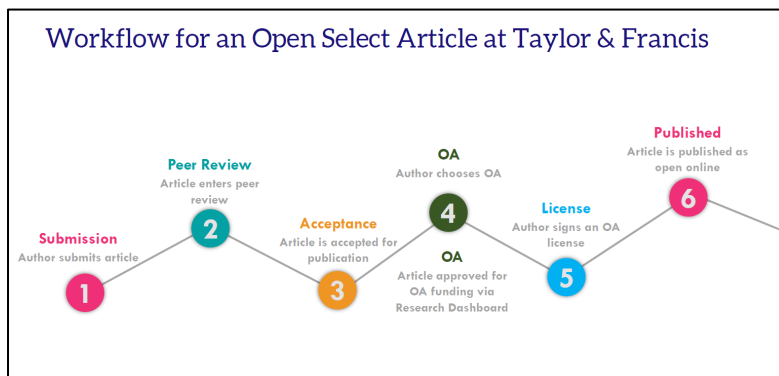

Information at a glance: <https://www.tandfonline.com/openaccess/members/28358>

The participating journals are e.g.:

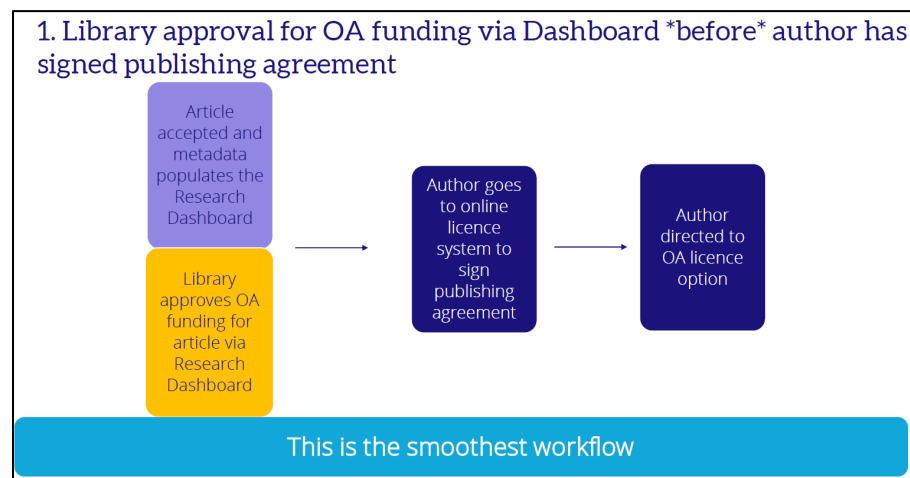

- Materials Science and Technology
- Engineering Studies
- Critical Reviews in Solid State and Materials Sciences
- Surface Engineering

Procedure:

Here, the crucial step is an intermediary dashboard, in which **those responsible at Leibniz-IWT (Ms. Tiedemann / Ms. Schicks)** must first approve the articles and verify an institute affiliation for the authors before a publication contract is released.

Thus, there are **two variants of the process**:

If possible, please be sure to follow the former process and wait for confirmation from the library. Otherwise, the process will be prolonged, as shown in this chart:

In case of successful application you will receive the following mail:

Approved Article Email to Author

Send To: Author Email

Subject: Gold Open Access funding approval for your article

Body:
 Dear Author First Name Last Name,

Re: Article Title; Journal Title

We recently emailed you to let you know that your Institution has an open access agreement with Taylor & Francis. We're pleased to let you know that your library has approved Gold Open Access funding for your article through their Research Dashboard.

This means that your article will be published open access; it will be available online for anyone to read, anywhere.

What happens next?
 If you have already signed an open access publishing agreement, you don't need to do anything.

If you have not yet signed a publishing agreement, or have already signed a non-open access publishing agreement, then you will receive an email asking you to sign a new publishing agreement. You will be asked to choose a Creative Commons licence, you can find more information about licence choice here. <http://authorservices.taylorandfrancis.com/publishing-agreements-your-options>. Please note that this can take 24 to 48 hours to reach you.

You will not be asked for any payment.
 If you have any queries, please contact apc@tandf.co.uk

Best wishes,
 Taylor & Francis Group

2. Leibniz Open Access Publication Fund

- The fund is financed proportionally from the strategy fund of the Leibniz Association's Presidential Board (**20 % of the publication costs**) and from funds of the participating institutes (80 % of the publication costs).
- By participating, the institutes commit themselves to finance the share amounting to 80 % of the publication costs of an article (including taxes). Participating institutions only pay for publications by their own employees.
- 55 institutions involved, 180,000 euros approved by the Leibniz Association for the period 2021 to the end of 2023.
- Leibniz-IWT participates **only in the publication fund for journal articles**
- Organization centrally **via TIB Hannover**

Eligibility criteria

- (8) Eligible items are those that meet the following criteria:
- The corresponding author is a member of the participating Leibniz Institute.
 - It is a genuine open access journal in which all publications are freely accessible under a Creative Commons license immediately upon publication (no hybrid journals or "mirror journals").
 - The journal applies a quality assurance procedure recognized in the respective subject and shall be listed in the Directory of Open Access Journals (DOAJ).
 - The total cost (including taxes) is a maximum of EUR 2,000.

What is listed in the DOAJ? -> <https://doaj.org/>

Procedure:

- As "corresponding author" of the article, you submit your funding application via the [central online form](#). Search for the IWT here under "Institution of the Leibniz Association".
- The grant application can be submitted as soon as the article is submitted.
- Incoming applications are reviewed by the TIB team based on the funding criteria and in order of receipt.
- If your article meets the funding criteria, you will receive an acknowledgement by e-mail. In this e-mail, you will also be asked to have the publishing invoice made out to TIB and to include a reference to the support from the Leibniz Publication Fund in the Acknowledgements of your article.

- TIB will then handle the financial processing of the invoice for you. TIB will settle the costs to be borne by Leibniz-IWT directly with the IWT library. Please inform **the responsible persons at Leibniz-IWT (Ms. Tiedemann / Ms. Schicks) in advance** from which funds the own contribution is to be financed (e.g. publication costs applied for in the project) so that the costs can be correctly accounted for.
- After publication, all funded articles are referenced via LeibnizOpen, the central Open Access portal of the Leibniz Association, as well as via the Leibniz Association website: <https://www.leibniz-gemeinschaft.de/forschung/open-science/open-access/leibnizopen>
